# LEASEWEB
# Cloud Connect

Cloud Connect – powered by Megaport – gives you the flexibility to move workloads between a public cloud and Leaseweb as demands, needs, and costs change. Bypass the Internet with Cloud Connect and securely connect your Leaseweb infrastructure to a public cloud provider. While the public cloud hosts your development, one-off workloads, or big data, Leaseweb hosts your business-critical applications and data. Cloud Connect allows you to extend your Leaseweb data center services to the public cloud and enjoy the benefit of all your operations functioning in one network.

## Why Choose Cloud Connect?

### Benefits

- Maximize efficiency by choosing the right cloud for different workloads.
- Secure connection with a private, direct connection to Multiple public cloud, including AWS, Google Cloud, and Microsoft Azure (bypass the Internet).
- Low latency and high throughput connections to AWS and Google Cloud.
- Predictable monthly costs with a flat fee (transparent pricing).
- Flexible IT processes allow for fast scaling and reduced time to market.
- Ability to create a hybrid cloud environment.

### Features

- Connectivity to Multiple public cloud, including AWS, Google Cloud, and Microsoft Azure is available in different speeds, from 100Mbps to 10Gbps.
- Supports AWS Hosted VIF and AWS Hosted Connection, Google Cloud Partner Interconnect, and Micrsoft Azure ExpressRoute.
- Connection powered by Megaport.
- Leaseweb products that can be connected to a public cloud are also available for Private Networking (including dedicated servers, Elastic Compute, and VMware vCloud).
- Services offered from multiple regions, including Europe (AMS-01 and FRA-10), United States (WDC-02), and Asia (SIN-10), to name a few, with more locations added in the future

## Why Choose Leaseweb?

At Leaseweb we are global but local, personal and flexible, and offer the best price to performance ratio. We are a trusted infrastructure provider for thousands of companies and their business-critical applications. Cloud Connect provides the perfect solution to create a hybrid cloud for any kind of workload, giving you all the control with 24/7 support available, if needed. We will be adding connections to other public clouds in the future.

**Which public cloud would you like to connect to?
